Review of Reviews

Keep Britain Out of Europe's Wars

The Feeling is Growing That Her Foreign Policy Should Be Changed

THEY TOLD US, we are told by Bruce G. Brown, former ambassador to the United Kingdom, in his new book, *Britain and the World: A History of Foreign Policy*, that the British Empire was the greatest empire in the world. He says that the British Empire was the greatest empire in the world, and that the British Empire was the greatest empire in the world.

Life on Venus and Mars Is Considered Possible

THEY TOLD US, we are told by Dr. James Watson, in his new book, *The Search for Life on Other Planets*, that the search for life on other planets is the most important task of the 21st century. He says that the search for life on other planets is the most important task of the 21st century, and that the search for life on other planets is the most important task of the 21st century.

"I surprised my whole family with the clothes I made," says Mrs. Robert M. Dowling

"I'm 37 years old. I wouldn't have dreamed of making myself a dress," declared Mrs. Dowling. "Then one day I dropped out of business and decided to make myself a dress. I was just about to give up the thought when I thought, 'Well, why not?'"

Then, one day I dropped out of business and decided to make myself a dress. I was just about to give up the thought when I thought, "Well, why not?"

Renewed Laughter

How (Age)—Lady: Well, I'd take a
percent of short messages. Are they British?
Gosh, yes. Yes, modern—the good of
building level. —Faintly British and French
Yes.

With the Drought—The Englishman
understand American thing?
Some of them. Why do you say?
The drought? It is to be noticed in an ex-
traordinary way, which is to be seen in the
—Chicago, Illinois, Chicago.

What Could Be Next?—A college professor, notoriously offbeat, has sent an e-mail to a sexual partner: "Is the reaction pretty, chargeless, target-focused, entering, wildly like a snap. This has come from the most sane, who happened to be already held by a gun."

Looking up, the charming young woman: "Suddenly we must hang together!" And developing further, finding there in the arms of the little hand, rests "L'indispensable!" — Edmond Rostand

Colling in January: The bill was slow and the land heavy. The dredge did not turn, but at last it stopped and went on bridge another inch.

The driver saw a man jumping. "After one, he said, 'Full power,' and he's off," he said. "He landed in the line of the 547. It was just like he was flying." —*The Evening Star*

Handbook—The terrible child watches the teacher approach and has for a few moments lost the plot.

— *Branches Express*

"What does it do for you? Have we not got your various needs covered with our regarding it, Greta?"

When Day is Done — or is a pleasant interlude in the day's

activities, there is nothing so enjoyable as a cup of BETTER TEA. It banishes fatigue, soothes jangled nerves and, iced or hot, is as refreshing as the evening breeze. BETTER TEA is the most economical of all beverages for BETTER TEA always gives more — more cups, more energy, more enjoyment. It is more economical to buy BETTER TEA. Empire grown for Empire homes, BETTER TEA is small-leaf tea — the pick of the season's crop — that you find, scientifically blended by tea experts, in the well-known packaged brands. There is no substitute for BETTER TEA — nothing more refreshing — and "any time is tea time."

UNRETouched, DIRECT COLOR PHOTOGRAPH TAKEN IN THE HOME OF MRS. R. L. PINE.

"No clothes lost through fading"

one important reason why Mrs. Pine has her washing done with Chipso

Look at Patty and Polly Pine. How charming their small frocks are, with their simple lines and clear, definite colors! And Bobby and David are well-groomed little men. Their suits are not streaked or faded and the white trimming is snowy white.

This photograph shows you that clothes need not be new to look nice. Nicely laundered clothes stay new looking. That is where Chipso helps Mrs. Pine. "Chipso takes the

dirt out quickly without hard rubbing, yet Chipso doesn't fade colors," she says.

"In fact, we think Chipso is unsurpassed because it is so **SAFE** for everything. My sports clothes and house-dresses wash beautifully in Chipso. Underwear and stockings keep their color and wear well. I usually wash the baby's woolen sweaters myself with Chipso. The wool stays nice and soft, without shrinking or turning yellow."

It's soapier... never harsh on hands or clothes

"I like Chipso for dishes," says Mrs. Pine. "It foams up into quick, thick suds which are not at all harsh on my hands."

Your smooth hands, after a session in Chipso suds, show you why Chipso-washed clothes stay new looking. Chipso is **SOAPIER**... it is not adulterated with harsh, "dirt-cutting"

ingredients, but loosens dirt with **RICH, lively SUDS**. Don't endanger the clothes you've spent good money for by washing them in cheap flakes or harsh soaps and powders. Get your big box of Chipso from your grocer. At its low price, Chipso is truly the best value in rich, **SAFE** soap on the market today.

Rich suds... dirt out
without hard rubbing

Bertha (the children call her "Birdie") worked for Mrs. Pine's mother when Mrs. Pine herself was no older than Patty is now. Here you see Birdie with a Pine-family wash in progress. "And it's no trifling item," says Mrs. Pine. "With David at the creeping and toddling age, Birdie often washes three times a week. But Chipso puts the work through fast because it makes such good, rich suds. They **EOAK** the dirt out. That is another way that Chipso saves our clothes. It makes hard, wash-board rubbing—which frays materials and scrapes off buttons—totally unnecessary."

MADE IN CANADA

Chipso makes clothes wear longer
